CERTIFICATE OF CONFORMITY - MANUFACTURER'S CERTIFICATE
STATEMENT OF THE MANUFACTURER
GMP statement

Hereby I, producer of the goods mentioned above, declare that all the goods exported to purchaser (the company importer) are entirely produced in European Union, therefore under application of strict regulations of European Law and Directive considering production of cosmetics and toiletry that are also valid and implemented by European Authorities. Products are also produced under full moral awareness of natural and quality products and therefore correspond to all regulations imposed by bodies of authority of any given importer worldwide. No ingredient that is used in exported products is by any chance on list of suspicious, forbidden, or morally questionable substances.

Further on, packaging, (glass, plastic and paper) and substances are of EU origin that guaranties safety to human health and environment.

PRODUCTION PROCESS

Production premises is following the guidelines of GMP providing sufficient ventilation and sunlight. Premises are regularly cleaned, as well as machines (after production follows degreaser and cleaning, while before production is cleaning with disinfectants alcohol solution) and other side rooms. Agents for cleaning machines and working place are used in compliance to GMP to maintain clean and safe working facilities. Raw-materials are kept in proper storage place, as well as finished products, properly divided and packed. Before and after the production, raw-materials are kept separate from packaging and from storage of finished products.

Premises as well as finished products are submitted to regular inspection of Slovenian National Institute for Public Health to which we have close and contracted cooperation.

Quality Control is held within the house and is in regular internal and external inspection.

According to this, under full moral and legal responsibility, I exclaim that mentioned products are safe to use in the area of intended usage (cosmetics and toiletry), are therefore safe to human health and environment.

For PHARMAHEMP d.o.o., Slovenia

Issued in April 2016.
